Careers at Veloshop

Build the Future of Global E-Commerce

NASDAQ: VELO | Headquartered in Kathmandu, Nepal

Operating across South Asia, the Middle East, Southeast Asia, Europe, and North America

This document is a fictional careers overview prepared for informational and testing purposes only.

1. Why Work at Veloshop

Veloshop is a large-cap, global e-commerce company headquartered in Kathmandu, Nepal, with regional operations spanning South Asia, the Middle East, Southeast Asia, Europe, and North America. Since our founding in March 2010, we have grown steadily from a regional online retailer into an internationally recognized marketplace — and our people have been at the center of that growth every step of the way.

We look for individuals who are customer-obsessed, execution-focused, and comfortable operating in a fast-moving, international environment. Whether in engineering, logistics, marketing, or corporate functions, Veloshop employees contribute directly to a platform used by tens of millions of customers worldwide.

1.1 Our Culture

- Customer Obsession — we start every decision with the customer's experience in mind.
- Global Collaboration — our teams work across five regional hubs and multiple time zones.
- Ownership & Accountability — employees are trusted to own outcomes, not just tasks.
- Steady, Sustainable Growth — we build for the long term, not short-term wins.
- Continuous Learning — we invest in the growth of our people alongside the growth of the company.

2. Benefits & Employee Programs

Health & Wellness Coverage: Comprehensive medical, dental, and vision coverage for employees, with regional variations to meet local standards.

Retirement & Savings Plans: Company-supported retirement savings programs available in applicable regions.

Paid Time Off: Generous annual leave, public holiday observance based on local region, and parental leave policies.

Employee Discount Program: All employees receive a standing discount on Veloshop purchases, along with periodic exclusive promotions.

Learning & Development: Access to internal training programs, leadership development tracks, and tuition support for approved courses.

Relocation Support: Assistance provided for employees relocating between Veloshop's regional hubs for approved international roles.

Employee Wellness Programs: Mental health resources, wellness stipends, and flexible work arrangements where role-appropriate.

3. Global Hiring Regions

Veloshop hires across each of its five regional hubs, with roles ranging from corporate functions at headquarters to specialized logistics and fulfillment positions in local markets.

Kathmandu, Nepal: Global Headquarters — executive leadership, core engineering, corporate functions.

New Delhi, India: South Asia Hub — regional operations, customer support, seller relations.

Dubai, United Arab Emirates: Middle East Hub — regional operations, logistics coordination, business development.

Singapore: Southeast Asia Hub — regional operations, marketplace growth, seller onboarding.

Berlin, Germany: European Hub — regulatory compliance, regional operations, fulfillment management.

Austin, Texas, United States: North America Hub — regional operations, marketing, fulfillment network expansion.

4. Current Open Positions

Below is a representative sample of current open positions across Veloshop's global offices. Listings are updated regularly as new roles become available.

Senior Software Engineer, Platform Infrastructure

Kathmandu, Nepal — Engineering — Full-Time

Responsible for designing and scaling core platform services that support Veloshop's global marketplace. Requires strong experience in distributed systems and cloud infrastructure.

Regional Logistics Manager

New Delhi, India — Operations — Full-Time

Oversees fulfillment center operations and last-mile delivery performance across the South Asia region. Requires prior experience in supply chain or logistics management.

Marketplace Growth Associate

Singapore — Commercial — Full-Time

Supports onboarding and growth of third-party sellers across Southeast Asian markets, working closely with the Chief Commercial Officer's team.

Data Analyst, Customer Insights

Dubai, United Arab Emirates — Analytics — Full-Time

Analyzes customer behavior data to support merchandising and marketing decisions across the Middle East region.

Compliance & Regulatory Affairs Specialist

Berlin, Germany — Legal & Compliance — Full-Time

Ensures Veloshop's European operations comply with regional e-commerce, data protection, and consumer protection regulations.

Fulfillment Center Operations Lead

Austin, Texas, United States — Operations — Full-Time

Manages day-to-day operations of a North American fulfillment center, including staffing, safety, and throughput optimization.

Digital Marketing Specialist

Kathmandu, Nepal — Marketing — Full-Time

Supports global brand campaigns and regional marketing localization efforts under the Chief Marketing Officer's team.

Customer Support Representative

New Delhi, India — Customer Support — Full-Time

Provides front-line customer support for order, payment, and delivery inquiries across South Asian markets.

Product Manager, VeloPlus Membership

Singapore — Product — Full-Time

Leads product strategy and roadmap for the VeloPlus subscription program, working cross-functionally with engineering and marketing.

Human Resources Business Partner

Austin, Texas, United States — People & Culture — Full-Time

Supports North American hiring, employee relations, and organizational development initiatives.

5. How to Apply

Interested candidates may apply to open positions through the Veloshop Careers portal, where they can search roles by region, department, and job type. Applications typically include a resume and a brief statement of interest.

5.1 Hiring Process

- Application Review — initial screening of resume and qualifications.
- Recruiter Screen — a brief conversation to discuss background and role fit.
- Hiring Manager Interview — in-depth discussion of role-specific skills and experience.
- Panel or Technical Assessment — role-dependent evaluation with cross-functional team members.
- Final Decision & Offer — offer extended to successful candidates, followed by onboarding.
